### **DETAILED ACTION**

1. In view of the appeal brief filed on 12/24/2009, PROSECUTION IS HEREBY REOPENED. Reason for allowance is set forth below.

To avoid abandonment of the application, appellant must exercise one of the following two options:

(1) file a reply under 37 CFR 1.111 (if this Office action is non-final) or a reply under 37 CFR 1.113 (if this Office action is final); or,

(2) initiate a new appeal by filing a notice of appeal under 37 CFR 41.31 followed by an appeal brief under 37 CFR 41.37. The previously paid notice of appeal fee and appeal brief fee can be applied to the new appeal. If, however, the appeal fees set forth in 37 CFR 41.20 have been increased since they were previously paid, then appellant must pay the difference between the increased fees and the amount previously paid.

A Supervisory Patent Examiner (SPE) has approved of reopening prosecution by signing below:

/Ricky Ngo/

Supervisory Patent Examiner, Art Unit 2464.

### ***Allowable Subject Matter***

2. Claims 1-24 are allowed.

3. The following is an examiner's statement of reasons for allowance:

Regarding claims 1, 6, 10, 14, 21 and 24 applicant argues that Nakano does not teach the composition of the transmission sequence depends on the cycle number of a particular transmission cycle. Examiner agrees that Nakano does not teach that the cycle number

Art Unit: 2464

determines the composition of transmission sequence. Rather Nakano teaches the numbers of channels are determined for a particular transmission sequence. Examiner concludes that the cited prior art teaches all limitations of the claims except processing a transmission sequence of real-time data packets within the first partial Cycle of the particular transmission cycle, wherein the transmission sequence is composed of one or more partial sequences, the composition of which depends on the cycle number determined for the particular transmission cycle, wherein the cycle number determines which of the partial sequences are transmitted in the particular transmission cycle, and wherein the pre-planning comprises defining a duration of each of the plurality of transmission cycles.

This taken with other limitations of the dependent claims is considered novel and non-obvious.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Chandrahas Patel whose telephone number is (571)270-1211. The examiner can normally be reached on Monday through Thursday 7:30 to 17:00 EST.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Ricky Ngo can be reached on 571-272-3139. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
